COLDWATER, MI

**The Coldwater River Watershed
Volunteer Stream Monitoring Team
is looking for people who like to
get wet!**

This fall we will host our first aquatic insect sampling within the Coldwater River watershed. Collected samples will help us to determine stream health and assist us in finding stream hotspots. If you don't mind getting a little wet and find aquatic insects / life interesting please consider becoming a

Stream Team Volunteer.

Shown above are the current team leaders and staff members of the Coldwater Stream Monitoring team.

***Come get wet with
us!***
